Managing and reporting sessions of care

The delegated person responsible for Child Care Subsidy (A person with management or control of the approved provider Skipton Primary School OSHC, or a person to whom the task is delegated to by the provider) will regularly undertake the management of reporting of sessions of care, absences, and business continuity payments. Session reports will be provided for each child for each week that care.

Topics addressed and details of information required in the weekly session report include:

Topic	Details
Type of report	Can be: <ul style="list-style-type: none"> • initial report, • variation (change) to a report, or • withdrawal of a report.
Dates	Start and end dates of the week the report covers.
Session details	Includes: <ul style="list-style-type: none"> • date, and • session start and finish times.
Attendance times	Child's actual in and out attendance times must be reported for each session of care (except where an absence is reported).
Absences	Includes: <ul style="list-style-type: none"> • notification of absences (if applicable), and • a reason for any additional absence (where child has used more than 42 absence days in a financial year).
Actual fee charged	The actual fee charged must reflect the amount the parent was liable to pay for the session of care. Where the parent directly benefits from another subsidy or discount that reduces their fee liability for the session (that the Skipton Primary School OSHC knows of), the amount in this field must reflect the remaining amount after the other subsidy or discount has been applied. Likewise, if the parent is not liable to pay the whole fee charged for the session (because a third party has accepted liability to pay some of the fee), this field must only reflect the portion that the parent is liable for.
Other subsidies paid to Skipton Primary School OSHC to reduce the individual's fee liability	Where the actual fee charged for the session was reduced by the amount of another subsidy that the parent directly benefited from (for example, employer contribution to parent's child care fees): <ul style="list-style-type: none"> • must indicate—yes/no. If 'yes': <ul style="list-style-type: none"> • name of the other subsidy payer • other subsidy amount—hourly or session amount.

Reporting absences

Child Care Subsidy is payable for up to 42 absence days for a child in a financial year for sessions of care a child is enrolled in and did not attend, but only for sessions of care where an individual still incurs a genuine fee liability to pay for the care. A reason does not need to be provided for a child's initial 42 days of absence.

Once 42 absence days have occurred in a financial year, Skipton Primary School OSHC will ensure that Child Care Subsidy is only paid for any additional absences where they are taken for a reason set out in Family Assistance Law.

These reasons include the following.

- The child, the individual who cares for the child, the individual's partner, or another person with whom the child lives is ill and the service has been given a medical certificate by a medical practitioner.
- The child is attending preschool.
- Alternative arrangements have been made on a pupil-free day.
- The child has not been immunised against an infectious disease, the absence occurs during an immunisation grace period and a medical practitioner has certified that exposure to the infectious disease would pose a health risk to the child.
- The absence is because the child is spending time with a person other than the individual who is their usual carer as required by a court order or a parenting plan, and the service has a copy of the relevant court order or parenting plan for the child.
- The service is closed as a direct result of a period of local emergency.
- The child cannot attend because of a local emergency (for example, because they are unable to travel to the service), during the period of the emergency or up to 28 days afterwards.
- The individual who cares for the child has decided the child should not attend the service for up to seven days immediately following the end of a period of local emergency.

In shared care arrangements (where separated parents both claim the Child Care Subsidy for the child's care), the 42 absences are allocated to the child, not to each individual parent.

Childcare fee assistance is payable for sessions of care provided to a child for an attendance or an allowable absence and not on the number of places a childcare service has available on a day. Therefore, where a child is absent from a session of care that was pre-booked and Skipton Primary School OSHC will charge the family and claims an absence on their behalf, the service can offer the absent child's place to another child.

Skipton Primary School OSHC may decide to discount fees in situations where a parent is able to provide advance notice and the place can be filled by another child. If the fees are discounted, Skipton Primary School OSHC will report the discounted fees to the Department of Education, Skills and Employment (DESE) so that the correct Child Care Subsidy can be calculated based on the actual fee the parent is charged for that session.

Reporting attendance times

Skipton Primary School OSHC will provide children's actual in-and-out attendance times in both statements of entitlements to families and session reports to the Australian Government. Attendance times are not used to calculate Child Care Subsidy or Additional Child Care Subsidy. Child Care Subsidy and Additional Child Care Subsidy are calculated based on the length of each session of care individuals are liable to pay for as reported in the session report. Reporting actual attendance times is intended to help parents understand the relationship between the fees they are charged, the amount of subsidy paid to their childcare provider on their behalf, and their out-of-pocket expenses.

Making business continuity payments

Business continuity payments may be made if a situation arises that is beyond the control of the Skipton Primary School OSHC and they are prevented from submitting session reports for reasons beyond their control. These payments are an emergency measure only and do not replace the requirement to submit session reports.

Examples of situations where business continuity payments may apply are

- a disruption to the operation of communication infrastructure the service uses that cannot be rectified by the end of the relevant period, and

- where the service is significantly affected by a natural disaster, such as flood, storm, fire, or earthquake.

Business continuity payments are intended to allow a service to continue operating until electronic reports can be provided. Payments made in this way should still be passed on to parents as fee reductions. Then, once Skipton Primary School OSHC is able to provide session reports again, any business continuity payments will be offset against Child Care Subsidy payments (including those that are calculated for a past period in respect to which any business continuity payments were made).

The amount to be paid will be based on the average weekly amount paid to the service during a similar previous period (for example, a similar number of children and similar time of year), known as a 'test period'. The amount of the weekly payment will be rounded to the nearest \$100.

When the service is new and there is no payment history to establish a test period, the amount will be 50 per cent of 50 hours of care for the estimated number of children in care for the week at the Child Care Subsidy hourly rate cap for the service type.

If Skipton Primary School OSHC is in a situation where it cannot submit session reports for reasons outside its control, the Nominated Supervisor or Person with Management Control will contact the Department of Education, Skills and Employment Child Care Subsidy Help Desk, 1300 667 276 or email: ccshelpdesk@dese.gov.au for support.
